Samvera, Willow, and RDM in Europe

Cottage Labs

Richard Jones - richard@cottagelabs.com

What is Samvera-Europe?

Why RDM and what is the Jisc RDSS Framework?

What is Willow?

How does the community benefit

The Samvera Europe Members

- **Cottage Labs** - Service provider and consultants
- **Durham University** - Samvera user
- **Lancaster University** - Samvera user
- **LSE** - Samvera partner
- **Senate House Library** - Samvera user
- **Trinity College Dublin** - Samvera user
- **University of London** - Service provider and consultants
- **University of Hull** - Samvera partner
- **University of Oxford** - Samvera user
- **University of York** - Samvera partner
- **Royal Library of Denmark** - Samvera partner
- Soon to be more ...

"Research organisations will ensure that EPSRC-funded research data is securely preserved for a minimum of 10-years from the date that any researcher 'privileged access' period expires or, if others have accessed the data, from last date on which access to the data was requested by a third party."

https://www.epsrc.ac.uk/about/standards/researchdata/

"We're working on a pilot service to allow researchers and institutions to meet their policy requirements for the deposit and curation of research data."

- A new system that can be offered as a managed service, relieving burden from institutional IT and procurement staff

- Procure research data management (RDM) services and consultancy to support pilot institutions' RDM requirements and implementation

Jisc RDSS

This is where we come in

Jisc RDSS Suppliers

We are one of 4 suppliers in the framework

https://www.jisc.ac.uk/rd/projects/research-data-shared-service

WILLOW

A collection of supported and integrated Samvera components. Hosted and maintained as you need.
https://cottagelabs.com/willow
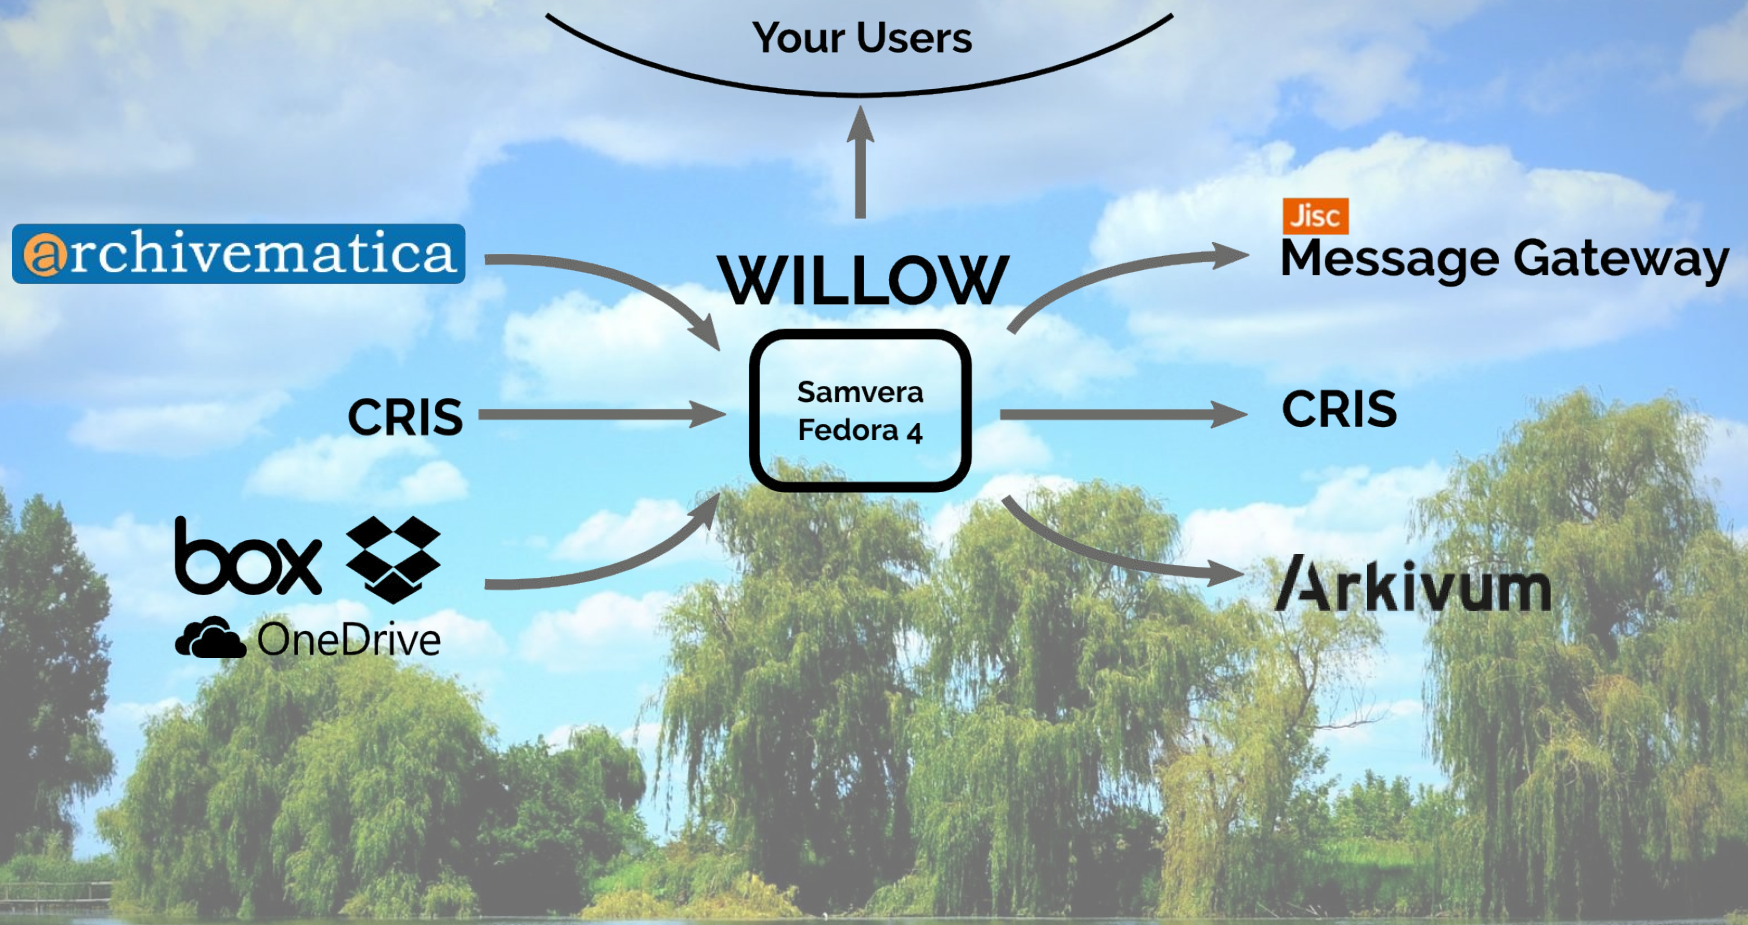

Integrations

Willow is built to be integrated with a variety of
software and services which are valuable to
the research community.

Community

Enhancements to Samvera

Through RDSS and other work in the Willow team…

Implementation of SWORDv2 and OAI-PMH

Work to containarise the Fedora/Samvera stack for ease of deployment both locally and in the cloud

We hope to be contributing these to the community over the course of this year
Samvera Europe user group

Presentations and Demos in Europe

Raise the profile of Samvera in Europe

Exposure via RDSS Framework

Offer flexible development, hosting, maintenance and support
