

Ye Olde Tech Call

2020-10-14

Samvera Connect 2020

Jeremy Friesen (University of Notre Dame)

samvera

Outline

1. What is it now?
2. Some History
3. Some Data
4. What we need?

What is it now

A weekly* Zoom meeting at 12pm Eastern Time where we talk:

- 1) Tech issues in the community
- 2) Review pull requests
- 3) Review help requests
- 4) Provide another place for you to ask questions, learn, and help out

<https://wiki.lyrasis.org/display/samvera/Notes+from+Meetings+and+Calls>

* - when there are Samvera meetings or conferences we don't meet

What is it now

We might also:

- Create an working group to address something large in scope
- Write up an issue
- Identify an upstream breaking dependency
- Discuss promoting components
- Discuss developer and integration toolboxes

What is it now...for me

Of all of my Zoom meetings, this is the one that gives me the most energy.

- We introduce and greet each other
- We follow a structured agenda
- Bring help to each other
- Work to keep nurturing our community
- Seed future work to grow

History

First Meeting:

- [2010-10-25](#)
- Scoped as “Committers Call”
- No attendee list

They discussed:

- Documentation and changes for four components
- Registering a project website (projecthydra.org)

History

Highest Attendance: 23 attendees on [2018-04-10](#)

Switch from Committers to Tech Call: [2014-10-08](#)

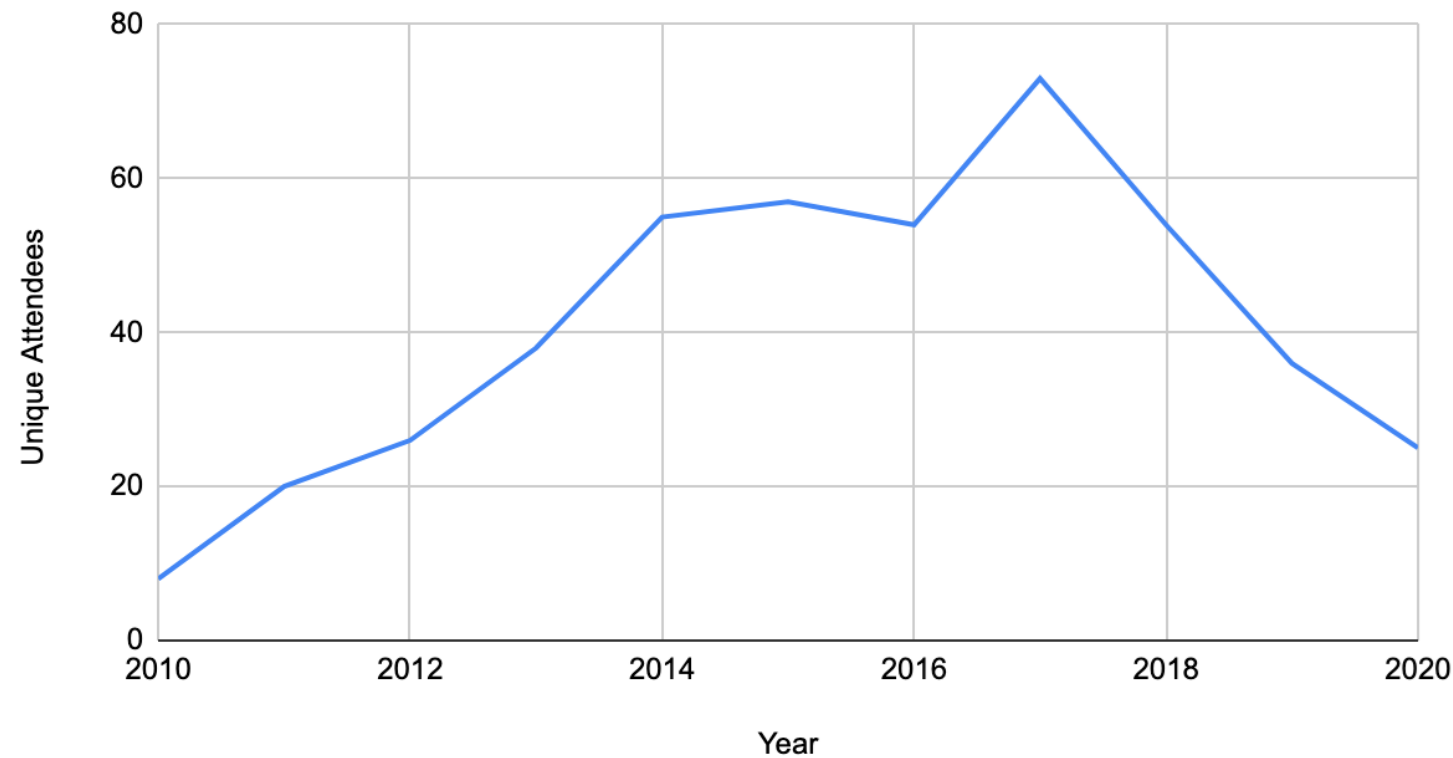

Switch from Hydra to Samvera Tech: [2017-05-31](#)

First Reported Cat Attendee: [2013-05-06](#)

Unique Attendees by Year

Unique Attendees vs. Year

185 Total Unique Attendees

What We Need?

For you all to know that:

- The Samvera Tech call exists
- It's an opportunity to engage in a high bandwidth discussion
- You do not need a signed Contributor License Agreement (CLA) to participate
- You do not need to be part of partnering institution to participate

What We Need?

Please consider joining us on Wednesdays at 12pm Eastern Time.
