

User-Informed Design: User Interface and Forms

Tahir Poduska • Ashley Shea • John Fereira • Darcy Branchini • Lynette Rayle • Kevin Kidwell • Greg Delisle

SUCCESSES

- Multi-step publication form created with validation for users with jQuery SmartWizard 4
- Devise modules created as dropdown menus
- Devise dropdown menus showing flash error or success messages for immediate feedback

CHALLENGES

- Creating and displaying user error messages for Devise dropdown menus
- Customization through so many pages
- Multi-step form summary page creation and ability to go back to a specific step to edit
