

Developing Hyrax for research data at DUL

Will Sexton & Moira Downey ■ Duke University Libraries ■ Samvera Connect, Oct 2018

The Research Data Repository is a service of the Duke Digital Repository that provides curation, access, and preservation of research data produced by the Duke community. Learn more »

> Deposit your data Browse datasets

A new homepage, highlighting recent deposits

What We Collect

The Research Data Repository accepts data, documentation, and software code related to the teaching and research mission of Duke University, including data linked to a publication, research project, and/or class projects. Data deposit is open to all members of the Duke Community with a valid netid. Contact datamanagement@duke.edu to talk with a consultant if you have questions about the DDR or other repository options.

Why Deposit in the Research Data Repository?

- Fulfill funder and journal requirements
- Maximize research impact and increase visibility
- Ensure that your data are preserved and accessible
- Participate in Duke's Open Access community

Data Submission Form

Please complete the following questions to get started with your data deposit. Use the controls at the bottom to advance through the form.
